Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Preliminary Amendment

1. This Office Action is in response to Applicant's Preliminary Amendment and Request for Continued Examination dated July 27, 2004.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. The amendments to said claims 1, 4 and 5 teaches "means for alternately selecting, for each field period, the first display field only for a first time period lasting a plurality of field periods, and then for each field period, the second display field only for a second time period lasting a plurality of field periods"

This claim reads as if each of the first and/or second display fields are lasting a **plurality of field periods** (a number of a fixed period of time 'n') **within one field period** (a single period of time 'n'). This feature is neither clarified in the specification or in the drawings.

The teaching of said feature in said claims 1, 4 and 5 needs to be clarified in the said claims and identified where it is supported in the specification and in the drawings.

Dependent claims 2 and 3 are rejected in that they are dependent on rejected independent claim 1.
